Section F - 12 marks

Background: TechPro Solutions is a mid-sized IT company specializing in software development and equipment maintenance. The company employs developers, technicians, and administrative staff who work in a shared office space. While TechPro has a strong focus on efficiency and innovation, recent incidents have raised concerns about their adherence to Occupational Health and Safety (OH&S) protocols. In the scenarios below suggest safety procedures to address these hazards.

 Needs reviewScore  / 4 pts

Needs review

57

Workplace Environment and Safety:

Several electrical cables run across the floor in the main office, creating a tripping hazard. Additionally, the office's emergency exit is partially blocked by old equipment awaiting disposal. Suggest **TWO** ways to address the workplace safety concern in the scenario.

To keep the electric hazard back in place

 Needs reviewScore  / 4 pts

Needs review

58

Protective Clothing and Equipment:

Technicians handling repairs often forget to wear their gloves and safety goggles, increasing their risk of injury. Explain why is it important to wear safety equipment.

to prevent getting a huge cut or worse that's why u have to use safety equipment.

✖ **Incorrect** 2/4 Points

2 / 4 pts

59

Security of Documents, Personnel, and Equipment:

Sensitive client files were found unlocked on a shared desk, and one of the computers was left logged in overnight, creating a security risk. Outline what is the potential risk and suggest TWO ways to prevent such risks.

never leave the files and the computer unlocked because any one can do something huge with it
